Telecommunications Working Group

On 21 December 1971, USIB approved the establishment of this working group, chaired by [] CIA Director of Communications to determine the most efficient means of dealing with unique communications problems within the intelligence community. A permanent Communications Committee may evolve from this Working Group because requirements in this field appear to be of a continuing nature.

UNITED STATES INTELLIGENCE BOARD

OFFICE OF THE EXECUTIVE SECRETARY

25 March 1968

USIB COMMITTEES AND SUBCOMMITTEES

The committees of the United States Intelligence Board and their respective subcommittees have been established by the Director of Central Intelligence, with the advice and concurrence of the Board, in accordance with directives and procedures prescribed by the National Security Council. Collectively, the committees and subcommittees provide the basic mechanism by which and through which the foreign intelligence activities of the various agencies engaged therein are coordinated and correlated to achieve overall national objectives. The coordination and correlation functions of those committees include aspects of intelligence production, intelligence collection, and certain support activities. Many of the committees are concerned with a definite and specified subject area in which, by NSC or other directive, responsibility or interest is shared by several agencies.

The work of the committees is subject to review by the DCI, the Board, and by the committees themselves. In addition, the committee structure as a whole is reviewed periodically by the Deputy to the DCI for National Intelligence Programs Evaluation. It is intended to continue the existing committees and subcommittees listed below during the coming year, subject to the results of continuing and periodic reviews indicated above.
